## QUALITY FEATURES:

- Carcase and front are available in lacquered stone grey matt and in real wood veneer oak rustico light oiled finish.
- Open spaces for items in lacquered stone grey matt are available in oak rustico light oiled finish, wild oak light soft brushed oiled finish and wild oak light oiled finish. For items completely in oak rustico the rear panels of the open spaces are finished in lacquered anthracite matt.
- Optionally many open spaces are available with glass doors in Optiwhite safety glass - open spaces on the side are available as open nooks, optionally with glass.
- For an airy look the standing items up to 4 height grids are available with an underframe in metal anthracite matt.
- For the lacquered items the handles are in the colour of the carcase, for items in oak rustico oiled finish the handles are in anthracite matt.
- LED lighting creates an interesting lighting atmosphere, for the open spaces as well as ambient and underframe lighting (only available with the underframe!).
- All lightings and can easily be operated with Touch-Light or with a transmit dimmer set at a surcharge.
- High-quality fittings with soft-close-mechanism.
- Drawers are equipped with a full pull-out.
- All standing items have adjustable feet which can be adjusted from the inside.
- Cable management system: cable outlet in the top leaf with a plastic cover for the lowboards, hanging lowboards and sideboards.
- Special sizes (special width, height and depth) available on request.
- Individual room concepts with the planning programme **furnplan**
- No special colours available..
- 5-Year-Guarantee according to the Quality Pass.
- Made in Germany.

## Important notice:

The supplied fastening material (dowels and screws) is intended only for assembly of components to concrete or solid masonry walls. When assembling components to a wall please always adhere to the max. load values. The nature of the designated wall is ideally enquired during the order process and checked again before assembly by the assembly technicians. If the structure of the wall is deviating from solid structure (e.g. lightweight walls) a different, suitable attachment method is imperative. Clarify all electrical conditions for connection and device technology upfront. Freely hanging lightings need a solution with a duct channel on or below plaster. Furniture can not be used as room divider.
